or face an immediate legal action for my reputational damages caused by this slanderous post.

I have no relation to this claim, to this case or to this alleged "breach of contract".

For the mounting loses on my clients's base and for the persisting reputational damages

I will seek the compensation starting at CHF 10 million, first in the court of Zürich, Switzerland, and thereafter within international administrative assistance framework in whatever jurisdiction where you reside. The claimed damages compensation will be cumulative and increasing in the course of the time.

Once again, you have only a week, till 10.12.2024.
